Summary

I'm an aspiring Software Developer honing my skills in Web Development using the MERN Stack. My goal is to create user-centric, innovative Web Applications and carve out a successful career in the dynamic tech industry. Currently, I'm mastering JavaScript to build interactive and dynamic Web experiences. I have also become skilled in Bootstrap and Tailwind, which helps me to style and structure responsive and visually appealing web interfaces.

My technical background in Electronics and Communication has equipped me with a strong analytical mindset, which I now apply to coding and Software Development.
